We also carry a full line of Fish Nets, Swisses, Madras, Serim and other lines of Curtain Material by the yard. Just opened a new large lot of Draperies of newest designs. Come and see them.

### SUGAR REACHES HIGHEST PRICE IN MANY YEARS

STOCK IN THE EASTERN REFINERIES IS AT VERY LOW EBB.

Believed That Some of Them Will Have to Shut Down Because of Scarcity of Raw Supplies.

[From a Staff Correspondent.]  
NEW YORK, Sept. 13.—Raw sugar, 96 degree centrifugal, advanced 1-1/2c yesterday to 5c per pound, the highest price for this grade in about two years. The highest price in 1899 was 4-3/4c. The sale on which the advance was brought about was not a large one, namely, 2,000 bags. Arbuckle Bros. were the purchasers.

At this price for raw sugar there is a difference of only 83c per 100 pounds for refining at the prevailing quotations for standard granulated, against about \$1.14 recently; that is, when raw was selling at 4-3/4c and the net price for granulated was about 5.89c. The profits in the refining trade consequently have dwindled down considerably, though the margin is still a fairly comfortable one.

The indications in the trade yesterday were that an advance in the price of granulated would be ordered forthwith if there be any delays in the arrivals of cargoes of raw now on the way. Quite a supply is expected, and if it all comes through safely and more or less on time the refiners will be in an easy position. Thus far the arrivals from Hawaii have been steady, but as Cuba has been sending little sugar, Java has been and still is the principal source of supply.

#### Refiners' Stocks are Light.

As the situation now is there is no sugar in importers' hands, so great has been the demand on the part of refiners, coupled with the falling off in the supplies, while refiners' stock is about 78,000 tons only. Meltings are at the rate of 40,000 tons per week, and refiners' stock is decreasing, inasmuch as receipts are less than meltings and are steadily averaging less and less.

The refined trade was fairly active yesterday and promises to continue so for several weeks longer. Though raws yesterday went to 5 cents, a price that was described in the trade as fancy, yet it was reported that several sales were made of sugars to arrive at 4-1/2c-4-7/8c. This was attributed to the expectation that the prospect of abundant offerings next month, when the new crop sugars will become available, will influence a considerable drop in the price.

Europe yesterday reported lower prices, but the decline had no material effect on this market, as there is little or no foreign sugar obtainable at present which would be suitable for the American trade.

#### Refineries May Close.

In Wall street the belief prevails that several of the refineries will shortly have to close because of the scarcity of raw supplies, or limit their activities to such an extent that their profits will be greatly curtailed. The trust was reported to have done the latter, and for that reason its shares were a trifle heavy on the stock exchange.

In this connection it was held to be significant that the trust is not offering the extra rebate of 1 per cent to all its customers, as the Arbuckles and the new National are doing. This was interpreted as meaning that the trust would not be in a position to fill all the orders it would then receive.

It is believed in the trade that the trust is allowing the extra rebate to some of its customers, and that the favored ones are those who increase their sales of the Lion brand coffees, the Sugar Trust-Woolson Spice product which is in competition with the package coffee of the Arbuckles.

As to the closing of refineries or the curtailment of meltings, sugar brokers said yesterday neither will be necessary unless an unforeseen demand of extraordinary proportions for granulated should shortly develop, or unless raw sugars on the way should fail for any reason to come through on time.

cargo. Similar action will be taken at the island of Guam and in the Philippines.

The approximate number of remains to be exhumed is 1,331, distributed in the following places: Honolulu, 34 enlisted men of the army and one marine; Guam, eight men of the navy; China, two officers of the army, 58 enlisted men of the army and 37 men of the navy; Philippines, 17 officers of the army, 1,150 enlisted men of the army and 38 men of the navy.

#### Plague Ended in Sydney.

Sydney, Sept. 12.—It is now upwards of a month since the last case of bubonic plague was discovered here. Nothing occurred yesterday to warrant the belief that the outbreak had not been overcome. There is every prospect that the wards at the quarantine hospital will be empty in a few days.

Brisbane, Sept. 12.—This morning, upon inquiry at the Town Hall, we ascertained that no fresh case of illness warranting close attention from the point of view of public health had occurred. Miss James, who was attacked with the disease in South Brisbane a few days since, was reported to be considerably better this morning. The almost stereotyped announcements came to hand that Wolff and Gibson were still on the improving side.

#### Warship for Krueger.

Lorenzo Marques, Monday, Sept. 17.—Mr. Krueger, the former president of the South African Republic, will not sail for Europe on the German steamer Herzog Monday, Sept. 24, as he originally intended.

The Hague, Sept. 19.—The government of The Netherlands has been notified of Mr. Krueger's acceptance of her offer to place a warship at his disposal to convey him from Lorenzo Marques to Holland.

#### Hanna to Take the Stump.

Chicago, Sept. 19.—Senator Hanna, encouraged by the reception given his speeches yesterday at the Commercial McKinley Club meeting, has about decided to go upon the stump during the last two weeks of the campaign. He will leave Saturday night for New York where he will remain ten days, at the end of which time he will return to Chicago to resume personal control of the national campaign in the west.

#### THE PROVIDENT SAVINGS.

The future certainly promises to be as prosperous under the management of President Scott as the past has been, and certainly any company that can make such an excellent showing to its policy-holders deserves the commendation for careful management and enterprise shown in all departments.—Wall Street Journal, I. R. Burns, resident manager, Ma-goon building.

### REVOLUTIONISTS CONTROL THE CUBAN CONVENTION

Havana, Sept. 19.—The results of the elections of delegates to the forthcoming constitutional convention are being freely discussed by the Havana delegates and other prominent Cubans. The conclusion reached is that the convention will be controlled by the revolutionary element.

In the main the delegates are capable men. Most of them, it is said are in favor of immediate and absolute independence, without the intervention of a protectorate.

The defeated parties here have raised a cry of fraud.

#### BODIES TO BE BROUGHT HOME.

Remains of Soldiers to be Interred in United States.

Washington, Sept. 19.—Colonel William S. Patton, of the Quartermaster's Department on duty at the War Department has completed arrangements for the free transportation to the United States of the remains of soldiers and sailors and civilians who lost their lives and were buried in the island possessions of the United States and in China. According to the present plans of the department a burial corps will take passage on the transport Hancock, scheduled to leave San Francisco on October 1st for the Philippines.

The corps will be in charge of D. E. Rhodes, inspector of National Cemeteries, who was sent to the Philippines in November, 1899, on a similar errand. When the transport stops at Honolulu to coal, the bodies buried there will be taken up and made part of her
